TESTIMONY

OF THE

Woollen Manufacturers of the United States

IN FAVOR OF THE

EATON TARIFF COMMISSION.

TESTIMONY

OF THE

National association of

Woollen Manufacturers of the United States

IN FAVOR OF THE

EATON TARIFF COMMISSION.

LIBRARY OF THE UNIVERSITY OF CALIFORNIA.

TESTIMONY

OF THE

WOOLLEN MANUFACTURERS OF THE UNITED STATES IN FAVOR OF THE EATON TARIFF COMMISSION.

A CIRCULAR has been recently issued by the Executive Committee of the National Association of Wool Manufacturers, and sent, as extensively as possible, to the wool manufacturers in all parts of the United States, accompanied by a copy of a statement of certain propositions respecting legislation on the wool and woollen tariff bill, and among them a proposition approving the Tariff Commission passed by the Senate at the last session of Congress. Each manufacturer was requested, if he could do so consistently with his views, to sign the statement and return it to the office of the above-named association, or to express his dissent. Statements assenting to the propositions referred to, signed by the representatives of many hundred woollen mills in nearly every State of the Union, have already been received, and others are coming in daily. Not five manufacturers have expressed dissent, while many who doubtless would assent to these propositions have neglected to file their statements. The list, however, includes substantially the principal woollen mills in the United States, and the accumulated statements are believed to be an indication of a nearly unanimous sentiment on the part of the woollen industry of the United States in favor of the measure for a tariff commission passed by the Senate.

Each of the statements, the names and localities of the mills and proprietors being changed, is as follows: —

The undersigned, manufacturer of woollens at Dayton, in the county of La Salle, and State of Illinois, employing three sets of machinery, hereby declares his assent to the following propositions in relation to a modification of the existing tariff on wool and woollens: —

1st. That the interests of the country, the farmer and the manufacturer, and the consumer both of fabrics and mutton, require that there should be a sufficient duty upon wool of the kinds advantageously grown here, to create an abundant supply of domestic wool for purposes of manufacture, and the supply of mutton for food.

2d. That the manufacturer should have, first, a duty covering all the duties paid out by him for wool and other raw material, and this duty should be specific.

3d. That, besides this, he should have a protective duty sufficient to offset the high cost of American labor, rates of interest, and higher taxes.

4th. That no change of the present tariff should be made without consulting those specially informed.

5th. That the present tariff should continue until special and minute information from *experts* shall indicate the changes that can be safely made.

6th. That the best mode for obtaining the required information is through the Eaton Tariff Commission, provided for in the bill passed by the Senate at the last session of Congress.

JESSE GREEN & SONS,
Dayton Woollen Mills.

These statements, which are bound together and will be submitted to the inspection of Congress, are signed by the representatives of the following-named mills, employing about 4,000 sets of machinery: —

also,

80,000 operatives, and having an annual production of the value of $160,000,000.
